## Foam Launching Arms (Foam Trailer)

model number 1050

### Product Description

Model Number 1050 Foam Trailers are designed to launch foam above storage tanks. STORAGETECH® monitor trailers can be used in the first place to back up fixed fire fighting systems on oil storage tanks, and in many cases used and applied as the first attack against the fire where fixed systems have failed, or were not available. It can be used as mobile or stationary. It has two nozzles, one of the nozzles is for water, the other one to launch the foam. The nozzles are made of aluminum and are resistant to corrosion. It has a manometer to indicate the flow pressure.
