OIL SKIMMERS

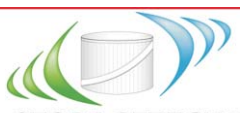

model number 1100

Product Description

Model Number 1100 is a compact easy to use self adjusting floating oil skimmer for daily and emergency use to clear undesirable oil, filth and dirt. Thanks to its effective design, it is one of the best methods for clearing scum. It is the most secure way to operate compared to other methods, such as use of hand held vacuums, absorbent blankets and similar materials that can be both dangerous to handle and are difficult to dispose of. You can use STORAGETECH® oil skimmers for open waters, such as lakes, as well as tanks, separators and silos.

Product Benefits

- Low cost and economical method for oil skimming.
- It can be applied for oil, grease, fuel, scum, and fats, but not limited with those.
- Easy to use and install.
- It is a very fast method.
- Can be applied on almost all kind of applications.
- Can be used for open (lakes) and closed waters (storage tanks).
- Generally the Micro Oil Skimmer can be used in any industry/business where an oil/water separation system is currently in place.
